WELCOME TO EMEP ENGINEERING

A Ghanaian-owned business in Accra, offering mechanical, electrical and plumbing construction works and services. Since our establishment in 2012, we have focused on quality, professionalism, and client satisfaction in private and public sectors.

We are committed to creating a safe, healthy, and environmentally responsible work environment for all employees, contractors, and visitors.

VISION & CORE VALUES

Vision

We aim to be the most preferred mechanical, electrical, plumbing engineering and contracting firm in Ghana and West Africa, delivering high-quality services efficiently.

Core Values

Our core values, guided by The PIES Rule, focus on:

- **People:** Enriching the lives of our team and appreciating clients
- **Integrity:** Doing the right thing
- **Excellence:** Striving for perfection and defining the future
- **Speed:** Providing value alongside well timed delivery

WHAT WE DO

As MEP contractors, we offer comprehensive services including project feasibility, design, and contracting works, in the following;

ELECTRICAL CONTRACTING

- HV, MV and LV Power Distribution System
- Lighting System Installation
- Building Management Systems
- IT, Data and Telecommunications Systems
- Fire Alarm Installations .
- CCTV, Intruder Alarm and Access Control Systems

PLUMBING CONTRACTING

- Hot and cold water supply installations
- Waste and soil drainage
- Rain water drainage
- Installations of firefighting and sprinkler system

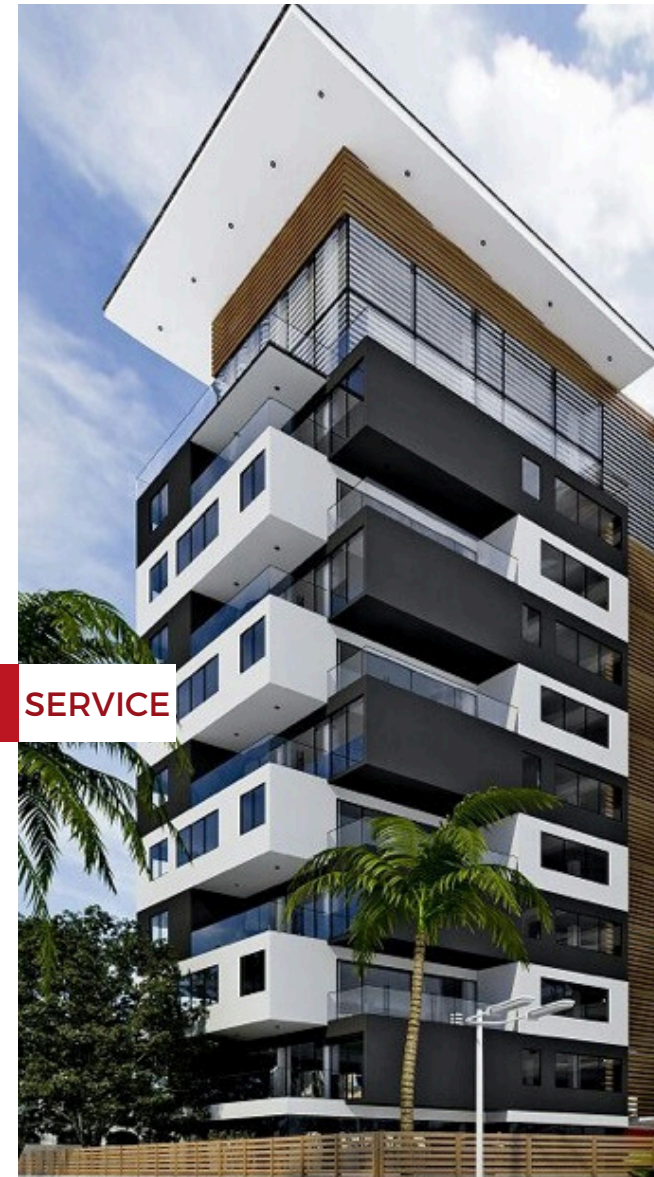

HVAC CONTRACTING

- Mechanical (Air-conditioning & Ventilation - HVAC)

MAINTENANCE CONTRACTING

- Operations and maintenance of MEP installation.

BEST SERVICE

WORKFORCE

MANAGEMENT

With over 25 years of business leadership experience, E-MEP is more than prepared in managing projects with the least number of setbacks from start to finish effectively.

TECHNICAL TEAM

The technical team consists of skilled engineers and technicians who tailor exceptional solutions for clients in MEP projects, ensuring timely and cost-effective outcomes. The company provides apprenticeship programs and collaborates with local and international regulatory bodies in the built environment sector.

QUALITY

EXPERIENCE

TEMPORARY ON - CALL

We have a large pool of on-call technical staff who support the management team and complement our skilled technical staff to ensure effective project completion in due time.

OUR COMMITMENT TO SUSTAINABILITY

We prioritize sustainability in MEP installation by focusing on;

- Energy efficiency,
- Using eco-friendly materials,
- Waste reduction
- Supporting sustainable building practices.

Our goal is to reduce adverse environmental effects, cut costs, create a healthy work environment, and contribute positively to communities.
